CHAPTER 16 AP BIOLOGY MULTIPLE CHOICE. Choose the one alternative that best completes the statement or answers the question. 1) For a couple of decades, biologists knew the nucleus contained DNA and proteins. The prevailing opinion was that proteins were the genetic material and not DNA. The reason for this belief was that proteins were more complex than DNA.

Chapter 16 The Molecular Basis of Inheritance Lecture Outline . Overview: Life's Operating Instructions. In April 1953, James Watson and Francis Crick shook the scientific world with an elegant double-helical model for the structure of deoxyribonucleic acid, or DNA. Your genetic endowment is the DNA you inherited from your parents.
