SIMULIA™ Licensing Support - Dassault Systèmes®
SIMULIA's multi-discipline framework, with Abaqus Unified FEA as the engine for realistic simulation, enables the multi-disciplinary, cross-functional collaboration required to cut design cycles, optimize designs in real time and provide increased value to businesses and a safer, more efficacious product for end users.

iSight focuses automatically and an image from iSight appears onscreen. This lets you know iSight is working properly. When iSight is in use and capturing video, a green light appears on top of the unit. If you don’t see an image: n Be sure iSight is plugged
in firmly and the lens is open (see page 18).
